

# JESSICA F. VERSOZA

Software Engineer

## SUMMARY

Versatile Full-Stack Developer adept at overcoming complex challenges in software development, consistently delivering strong results on time. Excels in high-pressure environments with innovative problem-solving skills.

## WORK EXPERIENCE

### Information Technology Associate | Dept. of Veterans Affairs, Sacramento, CA

September 2023 — Present

- Assist in the development, testing, and deployment of new software applications or systems
- Provide support for existing applications, troubleshooting issues, and implementing fixes or enhancements
- Collaborate with users to understand and document software bugs and required improvements

### Full Stack Web Developer | 100Devs, Los Angeles, CA

December 2022 — Present

Created full-stack web applications and static websites with software developers via high-quality, scalable code.

#### Recent Projects:

**Dimensional Depot (Full stack Web App)** – Developed an inventory management system for DnD characters, enabling users to add, create, and import items from DnD 5e.

**Express Yourself (Full stack Web App)** – Designed and implemented a note-taking application with user authentication, allowing users to create, edit, and delete notes within their profiles.

### Software Engineer | CommunityWeb Design, Sacramento, CA

September 2022 — September 2023

- Collaborate with the team to develop, test, and maintain responsive and user-friendly websites for local businesses
- Coordinate with the content team to manage and organize the content effectively on the website
- Identify bugs and technical issues, document them properly, and communicate them to the senior development team for resolution

### Software Engineer | Urban Oasis, Sacramento, CA

August 2022 — December 2022

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full-stack web applications
